- 1 Introduction 1**
 - 1.1 Online resources and contacting the author 2
- 2 Introducing Windows 7 3**
 - 2.1 A summary of nondiscussed new features 3
 - 2.2 Windows 7 editions 5
 - 2.3 Using multiple languages 9
 - 2.4 SuperFetch and ReadyBoost 10
 - 2.4.1 SuperFetch 10
 - 2.4.2 ReadyBoost 10
 - 2.5 32- or 64-bit Windows on the client 13
 - 2.6 Windows libraries 16
 - 2.7 Federated Search 18
 - 2.8 Problem Steps Recorder 19
- 3 Deploying Windows 7 21**
 - 3.1 Windows product activation 22
 - 3.1.1 License states 22
 - 3.1.2 Retail Activation 24
 - 3.1.3 OEM Activation 24
 - 3.1.4 Volume Activation 2.0 25
 - 3.1.5 Multiple Activation Key (MAK) 25
 - 3.1.6 Key Management Server (KMS) 26
 - 3.1.7 Licensing overview 28
 - 3.2 Windows 7 installation basics 29
 - 3.2.1 Windows 7 disk partitioning 30
 - 3.2.2 Installation passes 30
 - 3.3 Windows installation tools 33
 - 3.3.1 ImageX 33
 - 3.3.2 DISM 34
 - 3.3.3 Windows System Image Management (WSIM) 35
 - 3.3.4 DiskPart 37
 - 3.3.5 Sysprep 37
 - 3.3.6 BcdEdit 38
 - 3.3.7 Bcdboot 38
 - 3.3.8 Oscdimg 38
 - 3.4 Windows image management 40
 - 3.4.1 Accessing and maintaining WIM files 40

3.4.2	Accessing and maintaining VHD files	47
3.4.3	Installing Windows to boot from a VHD	50
3.5	Automating Windows Setup.....	51
3.5.1	Windows 7 answer files	51
3.5.2	Catalog files	51
3.5.3	Using Windows System Image Manager	52
3.5.4	Common WSIM scenarios	54
3.5.5	Adding files, packages and drivers.....	55
3.5.6	Adding scripts	58
3.5.7	Adding drivers.....	60
3.5.8	Apply the answer file	61
3.5.9	Unattended setup	63
3.5.10	Sensitive data in answer files.....	65
3.5.11	Troubleshooting unattended setup	66
3.6	Image servicing	68
3.6.1	Managing features	68
3.6.2	Managing device drivers	71
3.6.3	Managing Windows editions.....	75
3.6.4	Managing languages and language packs.....	77
3.6.5	Offline domain join	78
3.7	Customizing Windows setup	81
3.7.1	Windows Welcome	81
3.7.2	Customizing the desktop	89
3.7.3	Customizing the Start menu	95
3.7.4	Internet Explorer\$	97
3.7.5	Other customizations.....	97
3.8	Windows PE	99
3.8.1	What does Windows PE do and not do	99
3.8.2	Windows PE architecture and system requirements.....	100
3.8.3	Windows PE boot process.....	101
3.8.4	Building a custom Windows PE image	102
3.8.5	Booting Windows PE from a USB stick	105
3.8.6	Booting Windows PE from CD-ROM	106
3.8.7	Booting a locally stored WIM file.....	107
3.9	Windows Deployment Services.....	108
3.9.1	What's new in Windows Deployment Services	108
3.9.2	Prerequisites for running WDS	108
3.9.3	Installing Windows Deployment Services	108
3.9.4	WDS modes	109

3.9.5	WDS image types.....	109
3.9.6	Configuring Windows Deployment Server.....	110
3.10	Microsoft Deployment Toolkit.....	115
3.10.1	Building an MDT development lab.....	115
3.10.2	Installing Microsoft Deployment Toolkit.....	116
3.10.3	Getting started with MDT.....	116
3.10.4	Creating a distribution share.....	117
3.10.5	Exploring the distribution share.....	119
3.10.6	Generating the automated deployment.....	123
4	Managing Windows 7.....	125
4.1	Managing the boot menu.....	125
4.1.1	How to modify the BCD.....	125
4.1.2	Using BcdEdit.....	126
4.2	Power management.....	130
4.2.1	Power Plans.....	131
4.2.2	Using a custom Power Plan.....	131
4.2.3	Power efficiency diagnostics.....	133
4.2.4	Troubleshooting unexpected system wake-ups.....	133
4.3	WinRM.....	135
4.3.1	Configuring WinRM.....	135
4.3.2	Using WinRM for remote console.....	136
4.3.3	Using WinRM for systems management.....	136
4.4	PowerShell.....	138
4.4.1	Introducing PowerShell.....	139
4.4.2	PowerShell remoting.....	141
4.4.3	The PowerShell ISE.....	144
4.4.4	Using PowerShell for Windows management.....	146
4.5	Event Viewer.....	153
4.5.1	The Windows 7 Event Viewer UI.....	153
4.5.2	Custom views.....	155
4.5.3	Using events to trigger actions.....	156
4.5.4	Event forwarding.....	156
4.6	Task Scheduler.....	160
4.6.1	What's new in the Task Scheduler.....	160
4.6.2	Pulling the trigger.....	160
4.6.3	Redefining the action.....	162
4.6.4	Scripting the Task Scheduler.....	164
4.7	Group Policy.....	166
4.7.1	What's new in Group Policy.....	166

4.7.2	New Group Policy categories	168
4.7.3	Group Policy templates	169
4.7.4	Group Policy Preferences	170
4.7.5	Troubleshooting Group Policy	174
4.8	Printers and the Print Management Console.....	180
4.8.1	Location-aware printing	180
4.8.2	Print Management Console	181
4.8.3	Group Policy to configure printer connections.....	186
4.9	System and data recovery	188
4.9.1	NTBackup support	188
4.9.2	File Backup and Restore	188
4.9.3	Image Backup and Restore.....	192
4.9.4	Shadow Copy	194
4.9.5	System Protection.....	196
4.9.6	Reinstalling Windows 7	198
4.10	Windows Recovery Environment (WinRE)	199
4.10.1	Locating the Windows RE image	200
4.10.2	Booting Windows RE	201
4.10.3	Customizing Windows RE.....	202
4.11	Resource monitoring.....	204
4.11.1	Resource Monitor	205
4.11.2	Reliability Monitor	207
4.12	Windows Troubleshooting Framework	209
4.13	Remote Desktop and Remote Assistance	214
4.13.1	What's new in Remote Desktop	214
4.13.2	The Windows 7 Remote Desktop Client.....	216
4.13.3	Remote Assistance	219
5	Securing Windows 7	225
5.1	User Account Control.....	225
5.1.1	The security triangle.....	225
5.1.2	What is UAC about?	226
5.1.3	What happened to UAC in Windows 7?	227
5.1.4	What does UAC strip from the access token?	228
5.1.5	When does the Consent UI kick in.....	231
5.1.6	Configuring UAC in the Control Panel.....	232
5.1.7	UAC Group Policy options	233
5.2	File and registry virtualization.....	235
5.2.1	What is file and registry virtualization?	235
5.2.2	When are files and registry entries virtualized?	236

5.2.3	How file virtualization works	236
5.2.4	How registry virtualization works	238
5.2.5	Investigating virtualization	239
5.2.6	Possible issues with file and registry virtualization.....	240
5.2.7	Controlling file and registry virtualization using Group Policy	241
5.3	Internet Explorer in Protected mode	242
5.3.1	Integrity levels and Internet Explorer Protected mode	242
5.3.2	User Account Control and Internet Explorer Protected mode.....	243
5.3.3	IE User Interface Privilege Isolation	244
5.3.4	Internet Explorer Compatibility Layer	244
5.4	Session 0 isolation	246
5.5	File system security	247
5.5.1	Owner ACL	247
5.5.2	TrustedInstaller	249
5.5.3	What happened to Documents and Settings?	251
5.6	AppLocker.....	253
5.6.1	Creating AppLocker rules	254
5.6.2	Using AppLocker auditing	256
5.7	BitLocker.....	258
5.7.1	BitLocker to Go.....	258
5.7.2	BitLocker prerequisites	261
5.7.3	Limitations of BitLocker	262
5.7.4	How BitLocker works	262
5.7.5	BitLocker key scenarios	264
5.7.6	Key recovery and management	265
5.7.7	Configuring the TPM platform validation profile	267
5.7.8	Storing BitLocker recovery information in Active Directory	268
5.7.9	Installing BitLocker	271
5.7.10	Managing BitLocker	272
5.8	Removable Device Control	274
5.8.1	Device identification	274
5.8.2	The device identification process	276
5.8.3	Restricting device installation	276
5.8.4	Device driver installation by nonadministrators.....	278
5.8.5	Controlling Removable Storage Access.....	279
6	Windows 7 networking	281
6.1	The Next Generation stack	282
6.2	Performance enhancements	283
6.3	Network Discovery.....	285

6.3.1	Link Layer Topology Discovery	285
6.3.2	Web Services for devices and function discovery	286
6.4	Network location awareness	286
6.4.1	Manually selected network locations	287
6.5	IPv6	288
6.5.1	IPv6 transition technologies	288
6.5.2	IPv6 addressing	289
6.5.3	Disabling IPv6 components	292
6.6	Name resolution.....	295
6.6.1	Enhancements in DNS	295
6.6.2	Link-Local Multicast Name Resolution (LLMNR).....	297
6.6.3	Peer Name Resolution Protocol (PNRP).....	299
6.7	Wireless networks	301
6.7.1	Managing wireless networks with Group Policy.....	301
6.7.2	Managing wireless networks from the command line.....	302
6.8	IPsec	304
6.8.1	New functionality for IPsec.....	304
6.8.2	IPsec authentication.....	306
6.8.3	Cryptographic algorithms for IPsec	307
6.9	VPN and dial-up networks	309
6.9.1	Tunneling protocols	309
6.9.2	VPN protocol comparison	311
6.10	Policy-based QoS	313
6.11	Windows Firewall with advanced security.....	315
6.11.1	Network location types	315
6.11.2	Configuring Windows Firewall with Advanced Security.....	318
6.11.3	Managing Windows Firewall from the command line.....	325
6.12	Network Access Protection (NAP).....	326
6.12.1	NAP infrastructure components.....	326
6.12.2	NAP client configuration	328
6.13	DirectAccess.....	330
6.13.1	DirectAccess architecture	330
6.13.2	DirectAccess security	331
6.13.3	IPv6 connectivity and DirectAccess	331
6.13.4	Handling Internet and intranet traffic.....	333
6.14	Exempt network technology	334
7	Windows 7 Mobility	335
7.1	Offline Files.....	335
7.1.1	Offline Files and server configuration.....	337

7.1.2	Managing the offline file cache.....	338
7.2	Tablet PC Features	340
7.2.1	Tablet PC input panel.....	340
7.2.2	Pen Flicks	341
7.2.3	Calibration tool.....	341
7.3	Mobile Device Center.....	342
8	Migrating to Windows 7	343
8.1	(Roaming) Profiles	343
8.1.1	What's new in Windows 7 user profiles.....	343
8.1.2	Profile types in Windows 7	350
8.1.3	User profile compatibility	351
8.2	Application compatibility	352
8.2.1	Marking application compatibility in the UI.....	353
8.2.2	The Application Compatibility Database	355
8.3	User state migration.....	357
8.3.1	Windows Easy Transfer	357
8.3.2	User State Migration Tool (USMT) 4.0	358
	Index.....	361
